Course Update

Grass in our fairways have been slow to come on due to excessive rain, and some cooler than normal weather. As the temperature rises, the grass should come on strong.

We are also planning to paint Out of Bounds lines on the edge of the entrance road on hole number ten to indicate to visitors that the ball is not in play across the road.

We have put out 4.5 tons of fertilizer on the greens, fairways, and tee boxes. We have also verticut the greens to get them ready for the upcoming tournaments. We are planning to aerate the greens soon, probably after the Atwell Atkins Invitational Tournament.

We have been having problems with the irrigation system, but we believe we have fixed the problem, and should be able to get the course in good shape for the summer.

Membership Report

The total number of members in our club is currently at 111 regular members and 5 junior members.

With the reduced number of members the club has, it has become necessary to encourage green fee players to play at our club. If you know any of these players, encourage them to join and become members. We need to encourage as many potential members as we can to join the club. If any of you have any ideas how we might attract new members, please talk to a board member.

Clubhouse Changes

The clubhouse has been modified to create a room on the south side of the Pro Shop to provide a place for members to gather and play card games or other games or meetings. This changed the size of the Pro Shop, but still left plenty of room. The Pro Shop was then rearranged to make it more usable.

New Club Golf Shirts

The new golf shirts are in and available for purchase. Club members are able to purchase these shirts at reduced rates. By purchasing these shirts in quantity, we are able to bring them to you at very attractive pricing. The shirts are available for sale to anyone, including non members.

Get yours as soon as possible!
