Course Update

We have had some brown spots on the course and because of that Wayne has had to cut the fairway grass a little higher. He is putting lime on the greens now and filling in low places and holes on the course with topsoil. Wayne is also looking for a lift that can be used to cut some of the limbs that need to be cut on the course. The greens are in good shape.

New Member

We have a new junior member of the club. Lee Jaynes joined the club in August.

With the reduced number of members the club has, it has become necessary to encourage green fee players to play at our club. If you know any of these players, encourage them to join and become members. We need to encourage as many potential members as we can to join the club. If any of you have any ideas how we might attract new members, please talk to a board member.

Walking Track

Several of the club members and families have been using the cart paths of the club as a walking track. If you haven't taken advantage of it, it is a nice walk and a good way to get exercise. Even if you are a spouse or member who doesn't play golf, you might want to consider taking advantage of this. The evenings and mornings are beautiful this time of year. Others are walking the course as they play golf to get exercise. Come on out and enjoy!
