

**Green Oaks Golf Club
December 2014
New Letter**

The Club refinancing, as approved by the membership during the last special meeting, has been completed and the Board is looking into purchasing new golf carts, hope they are not electric due to current battery costs.

The weather in November was fantastic, and the golfing was great. It looks like the first part of December will be mild with the temperature hovering around 50 – 65 degrees. Keep a check on the temperature and come on out when you can and enjoy a round of golf.

If the weather is nice during the week, numerous members meet at the practice green, Monday thru Friday, at 11:45 to chose up teams. It doesn't matter what your skill level is, they do their best to make the teams fair and the most any one can lose is \$2.00 per team. On Saturday and Sunday members meet at 8 and 12 to choose teams and play. Again the teams are picked as fair as possible. No matter when you play the rules are the same, 4 player teams the two low scores count, 5 player teams the three low scores count. We try not to have six players on a team.

The greens have gone dormant and there are several places that were patched so when spring comes around, they should be in good shape. There is nothing standard about the speed from green to green, some are slow and some are really fast with a few in the middle. A lot of trees have been cut or trimmed this year to open the fairways up a little more. Overall she's in good shape for the shape she's in.

As always we have the dining room that is available for a small fee to both members and non members for what ever event you want to have.

The annual membership meeting is the first Tuesday in April (7th of April). If you would like to run for one of the three positions that are being vacated, let someone in he Pro shop know. We encourage any member to run. We also encourage all members to mark their calenders so they can attend the annual membership meet and vote for the candidates.

Have a happy and safe holiday season, I hope to see you on the links before spring.
