

Membership Letter, dated 1 August 2023

Dear members of Green Oaks Golf Club, This is Nathan Fast and I am the new club President of the board at Green Oaks. Mrs. Vicky stepped down and I was given the opportunity to help the club out just as she was. I would personally like everyone whether you know me or not to know that I have the best interest in mind for this club. This club is my family away from family and I know that a lot of you understand that feeling. I want to make a special note that this course has my attention and my heart and together we can grow together. I would like to apologize for the tardiness of this month's newsletter. I am going to try and cover as much as I can without dragging this letter onto the next page. Some of you may have noticed that there is a new greens keeper taking care of the course. His name is Brad Wilkerson. His brother as well as his father have worked and owned golf courses and have taught him what they know. Brad, along with the help of our consultant, are making headway on the course and getting a plan and cutting schedule in place to get this course in the best condition that can be reached. I would also like to inform the members that their hard earned money has been currently going to the course equipment. We now have 3 running greens mowers. One of them is getting set up to cut the tee boxes and the collars of the greens. The second mower is getting equipped with verticutting reels and the third mower has updated reels and new bearings to better keep consistency in cutting. Also in the mowing lineup is 2 zero turns and the rough cutter has been fixed and back in use. Moving inside the building you will notice the new lounge computer that both of our wonderful bartenders are enjoying quite nicely. Plans to get the pro shop a new system is in the plans. As a reminder for all members alike we must as a business follow the ABC guidelines and remain in the lounge area, and if anything is needed from behind a counter make sure a bartender is present to ask them what is needed. I know for some of you out there it is not always easy seeing something change. But a wise man once told me that to begin a journey of 10,000 steps you first must take the first one. I hope that we can make this the fun, loving, and memorable course that I know it has the potential of being.

Sincerely,
Nathan Fast
President, Green Oak Golf Club
